---***---

Abstract – Sportiforbis is a web based application which helps both sports council members as well as athletes to reduce their work load. The system store the details of best athlete in the district level in each event based on their category.

The main aim of this paper is to select the best athlete in the state level. The state sports council add the details of tournament in each category. State sports council provide username and password to district sports council secretory through email.. They can login to the system and add winners of different categories and view the sponsors details of that student. Also sent feedback to admin related to any sports related issues in the district.

The district sports council is the authorized authority to select the athlete for national international meets. The sponsors can select the athlete for sponsorship and sent the request to state sports council. If the state sports council accept his/her request, then they will sent the bank details of the athlete. The athlete need to conforming the sponsorship, sent feedback to state sports council. The state sports council is the main administrator in the system who is the authorized authority to control the overall system like adding category, year, event, accepting the sponsors and athlete for national/international meets, view feedbacks.

*Key Words***: Existing System, Proposed System, Sport is part of culture.**

1. INTRODUCTION

Sports Council Management System" is a web based application which helps both sports council members as well as athletes to reduce their work load. It store the details of best athlete in the district level in each event based on their category.

The main aim is to select the best athlete in the state level. The state sports council decides a cut off for the performance time in each event for each category. If the athlete satisfy this criteria, then the district sports council who belongs in that district will enter the details of the athlete and his/her achievements. After the sports council enter the details of athlete, and then athlete will get the username and password through email. They can login to the system and view the best achievements based on category, event and year and view the sponsors details of that student. Also sent feedback to admin related to any sports related issues in the district.

The district sports council is the authorized authority to select the athlete for sports hostel and sent the request to state sports council. They can edit the details of athlete. The sponsors can select the athlete for sponsorship and sent the request to state sports council. If the state sports council accept his/her request, then they will sent the bank details of the athlete. The athlete need to conforming the sponsorship, sent feedback to state sports council. The state sports council is the main administrator in the system who is the authorized authority to control the overall system like adding category, year, event, accepting the sponsors and athlete for sports hostel, view feedbacks.

2.CONCEPT

This paper deals with the automation of sports council. This paper is developed with the objective of making the system reliable, easier, fast, and more informative. In manual System, there are number of inefficiencies. Large records-books have to be maintained where relevant and irrelevant information has to be stored which is very untidy and clumsy process. However our System reduces paper works. On the opposite hand, there area unit several inherent issues that exist in any manual system. Less potency contains a nice impact on the productivity of any soul keeping the info up-to-date.

3.Existing System

There is no website like "Sports Council Management system". Currently sports council conduct additional meet for choose contestant to the sports hostel and for national/international level meet. Therefore it will take extra time as fund for conducting sports meet and additionally will lost the energy of an contestant. At present there's no system for sponsor the contestant. So that sponsor have to be compelled to visit colleges and call with college authority. As a sponsor it's a giant task. The planned system solve these issues.

4.Proposed System

Proposed System the "Sports Council management System" is helps to scale back the work load of each sports council and contestant. The main aim of this technique is to pick out the most effective contestant within the state level. The system have following benefits.

4.1 User friendly
User friendly the planned system is user friendly as a result of the retrieval and storing information|of knowledge|of

information} is quick and therefore the data will maintained with efficiency. Furthermore the graphical computer programme is provided within the planned system, that provides user to move the system terribly simply.

4.2 Reports can be easily generate

Reports may be simply generate Reports may be simply generate in a very planned system. Find the most effective performance time of the contestant in every event and class. Thus athletes will improve their performance time. Need not conduct additional meet for choice method of sports hostel. Suggest best contestant for national/international level meet can offer support through net.

4.3 No or very few paperwork

The planned system either doesn't need paper work or only a few paper works is needed. Once the user insert knowledge into the pc, then it'll generate the reports. Since all {the knowledge|the info|the information} is unbroken in a very information in order that no data of the search may be destroyed. Furthermore work becomes terribly simple as a result of there's no have to be compelled to keep knowledge on papers.

4.4 Computer operator control

There is no likelihood of errors. Furthermore storing and retrieving of knowledge is simple. Thus work may be done rapidly and in time.

5.Sport is a component of culture

Sport forms a part of a nation's culture. It's a world event, ready to delight billions and attract their attention to periodic Olympic, world, international or paralympic games. Will one actually claim, fairly and with validity, that the billions of people UN agency have, throughout centuries, been delighted with sport area unit "mindless"? As with several others, I fancy a decent game of soccer also as a superbly delivered pass, a dribble or a beautifully-taken goal; athletic feats that need stamina, imagination, creative thinking and superior skill to execute. Denigrators cannot discredit such ability. I think those not appreciating or enjoying same area unit missing out however i'd ne'er decision them "mindless". In this context, sport forms a part of a nation's culture. Deputation it's incorrect; associate unfair, biased and restricted read. Sport is to be appreciated for its own sake, as a part of the nation's activities, a positive side of our world activities. Long could it thus flourish and should converts see the sunshine or, higher still, fancy the sweetness of sport [1].

6.Scope of the Paper

The Sports council management system aims at serving to the user to deal with problems from multi-disciplinary angles associated with Sports council. The major edges of this technique area unit - *The system can cut back the manual work. *The system can generate details of best

contestant for sports hostel. *The user will check the most effective contestant. *Sponsors will sponsor the contestant tho' net. In specific, the merchandise has been place into perspective through an in depth assessment of the system, user, hardware, code and communication interfaces, memory issues, operational modes and web site adaptation necessities. Further, characteristics of the system's end-users area unit mentioned together with the known system constraints and assumptions. To conclude the section, associate allotment of necessities has been printed.

7.CONCLUSION

The 'Sports Council Management System' is developed for cut back the employment of sports council and contestant. Main aim of this project is to pick out the most effective contestant within the state supported every event and class. All the users will login to the system and perform their actions. The system can facilitate to scale back the manual add sports council. Scope for Future Enhancements It coated the majority the necessities. Any necessities and enhancements will simply be done since the committal to writing is principally structured or standard in nature. The system involves many benefits. These benefits may be extended in future for a lot of advanced technologies. The system is versatile enough to include new databases to existing one.
